## PC554 Fast UV Wash – TECHNICAL DATA

### Product Summary

PC554 is a highly effective water miscible solvent to be used as part of a regular blanket and roller maintenance program. PC554 is free from petroleum hydrocarbons and safe to use on both EPDM and Nitrile rubber.

PC554 is formulated with special additives to help rejuvenate the blanket and rollers, which help prolong their working life and can be used to clean UV, Hybrid or conventional inks (combi cleaning).

### Properties

Flashpoint:- ~32C

Colour:- Colourless

State:- Liquid

Solubility:- Miscible with water

Odour:- Ether

VOC: approx. 100%

Packaging:- 5litre, 10litres, 25litres, 205litres, 1000litres

Recommended shelf-life:- 12 months

Storage:- Store between 5 and 30C for best results.

Labelling:- GHS07 – Exclamation Mark, GHS02 – Flame.

### Method of Use

For Blankets: Apply manually with a lint free cloth. Wash over with water afterwards.

For Rollers: Used neat to clean rollers or in combination water. Ensure the rollers are flushed with water prior to starting the next job.

NB. This product will not give rise to any significant hazard provided reasonable standards of industrial practice are maintained. Consult MSDS for further guidance.
